PROFESSIONAL SUMMARY

BCA graduate with a strong interest in Data Analytics and creative technology. Currently pursuing Data Analytics training at TOPS Technologies, with practical learning in Python, SQL/MySQL, Excel, data cleaning and visualization. Also have hands-on exposure to UI/UX designing through internship training. Looking for an entry-level opportunity where I can apply my technical and analytical skills, learn continuously, and contribute to a professional team.

CAREER OBJECTIVE

To begin my career in a growth-oriented organization where I can use my knowledge of Python, data analytics, SQL and problem-solving, while developing practical industry skills and contributing positively to the organization.

EDUCATION

Bachelor of Computer Applications (BCA)

G.K. & C.K. Bosamiya College, Jetpur | Saurashtra University | Completed

Higher Secondary (12th)

Shree Vivekanand Vidhyalay | 2023

Secondary (10th)

Shree Vivekanand Vidhyalay | 2021

TECHNICAL SKILLS

- Programming: Python, Core Python
- Database: MySQL / SQL fundamentals
- Data Analytics: Data cleaning, basic data analysis, filtering, sorting, grouping, descriptive statistics and visualization concepts
- Tools: VS Code, Excel, GitHub
- Web Technologies: HTML, CSS, basic PHP
- Design: UI/UX design, Figma basics, layout and user-interface concepts

INTERNSHIP / EXPERIENCE

UI/UX Designing Intern – Vortex Aziel

Duration: 15 Days

- Practiced basic UI/UX design principles and user-friendly interface concepts.
- Worked on layout planning, visual elements and interface design activities.
- Gained practical exposure to creating simple and organized digital interfaces.
- UI/UX Design Principles
- User Interface (UI) Design

- User Experience (UX) Design
- Wireframing & Prototyping
- Figma
- Layout & Visual Design
- User-friendly Interface Design
- Color, Typography & Spacing
- Basic User Flow & Navigation
- Responsive Design Concepts
- Creating clean and organized web/app interfaces

CURRENT TRAINING

Data Analytics Training – TOPS Technologies

- Learning Python for data analysis and problem solving.
- Practicing SQL/MySQL and basic database concepts.
- Learning data cleaning, analysis, filtering, grouping and visualization concepts.
- Practicing Excel and basic analytical techniques.
- Preparing for entry-level Data Analyst interviews and practical assignments.

ACADEMIC / PRACTICAL PROJECTS

Art on Hands – Web Design Project

A creative web project based on Mehendi and Nail Art services.

- Designed service pages with navigation, gallery, ideas and appointment sections.
- Worked with HTML, CSS and basic PHP concepts.
- Focused on simple navigation, clean layout and user-friendly presentation.
- Developed a creative website for **Mehendi and Nail Art services**.
- Designed pages for **Home, Services, Gallery, Ideas and Appointment** sections.
- Created a simple and attractive **user-friendly interface**.
- Used **HTML and CSS** for website structure and styling.
- Used basic **PHP** concepts for website functionality.
- Added service details and visual gallery to showcase Mehendi and Nail Art designs.
- Focused on **navigation, layout, typography, spacing and visual presentation**.
- Designed the website with a clean and organized structure to improve user experience.
- Applied basic **UI/UX design principles** while creating the website

RELEVANT COURSEWORK / KNOWLEDGE

- Python fundamentals: variables, data types, strings, lists, tuples, sets and dictionaries
- Functions, loops, if-else, break, continue, pass, lambda, args and kwargs
- SQL basics, MySQL and database concepts
- Data analysis concepts: mean, median, mode, missing values and duplicates
- Matplotlib and basic data visualization concepts

SOFT SKILLS

- Communication and active listening
- Problem-solving and logical thinking
- Teamwork and collaboration
- Time management
- Willingness to learn
- Creativity and attention to detail
- Adaptability

CERTIFICATIONS & TRAINING

- Data Analytics Training – TOPS Technologies (Currently Pursuing)
- UI/UX Designing Internship / Training – Vortex Aziel

AREAS OF INTEREST

- Data Analytics and Data Visualization
- Python and SQL
- UI/UX Designing and Figma
- Learning new technologies
- Creative digital design

KEY STRENGTHS

- Quick learner with interest in both analytical and creative work.
- Comfortable learning new software and technical concepts.
- Interested in solving practical problems using Python and data.
- Able to work on structured tasks and follow project requirements.
